KingSoutel CRA Plan
Public Art Project
Art Selection Panel Package

Feb. 23, 2023

KingSoutel Crossing CRA Plan Public Art

Project Manager: Kat Wright

Project Budget: initially \$100,000.00 (\$10K was allocated for creative content)

Premise: Create a dynamic public artwork extending on the “Legends” theme, which has been acknowledged through architecture attribution and other public artwork in the area.

DESIGN PARAMETERS

- The content should reflect other local African-American trailblazers and their accomplishments
- The content should be vibrant and incorporate colors of blues, yellows, reds; but should also consider incorporating colors of African-American achievement such as green, black and brown
- The content should be compelling and inspire others to trailblaze along their own journey

KingSoutel Crossing CRA Plan Public Art

Project Manager: Kat Wright

Project Budget: initially \$100,000.00 (\$10K was allocated for creative content)

Site Assessment - Bob Hayes Athletic Complex

Site Visit : December 12

- Terry McWhorter, COJ
Site Electrician

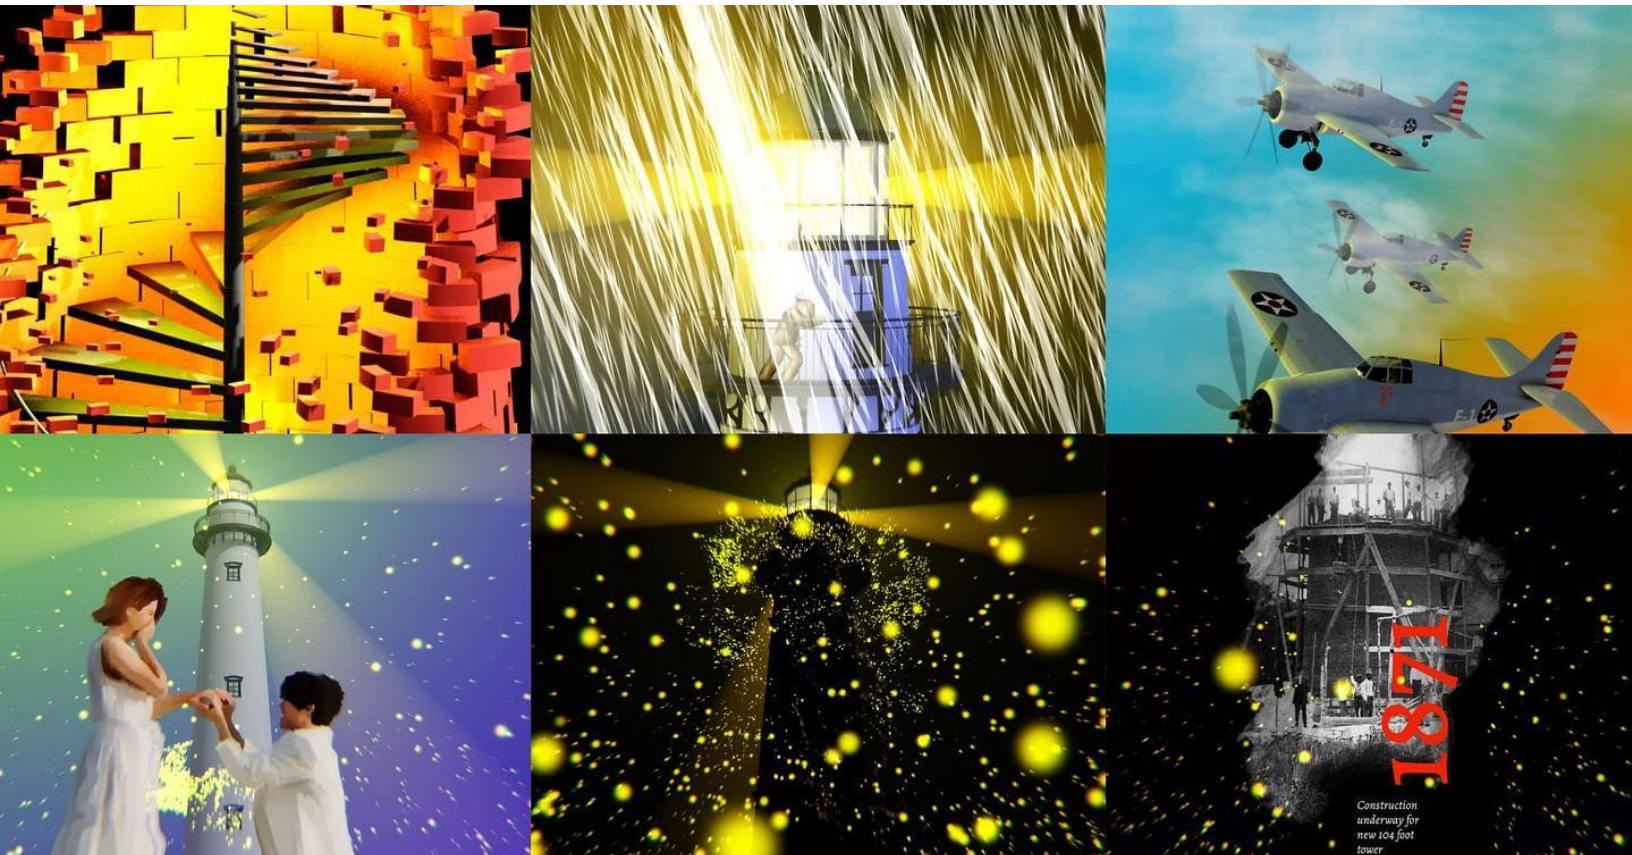

CASTAÑO GROUP

**We create content that builds connections
and connections that create change.**

We are an SBA certified 8(a) company specializing in video production and immersive design that connects disparate audiences with information, insight, and innovation. Our award-winning creative team has over 20 years of experience creating content that inspires action and behavioral change. Our design team utilizes technology to create meaningful interactions across a variety of physical and digital settings.

Legacy of Light Projection Show

The Coastal Georgia Historical Society (CGHS) wanted to celebrate the 150th anniversary of the lighthouse on St. Simons Island, Georgia, with a showcase experience that would celebrate the history and cultural heritage of the iconic structure. Projection mapping offered us a unique opportunity to create a video art installation that could interface with the lighthouse's facade and take audiences on an immersive and engaging journey.

Baptist Health – Reflections of Hope

Reflections of Hope is a projection mapping visual experience on the exterior of the Borowy Family Children's Critical Care Tower to create and use immersive, psychologically-attuned architecture to heal. The work blends three-dimensional animation with live-action video to create a unique visual experience that is projected each night, starting just after sunset.

Site Assessment - Bob Hayes Athletic Complex

Pavilion is set back approximately 500 feet from the street, which is also bordered by trees obscuring visibility to the projection.

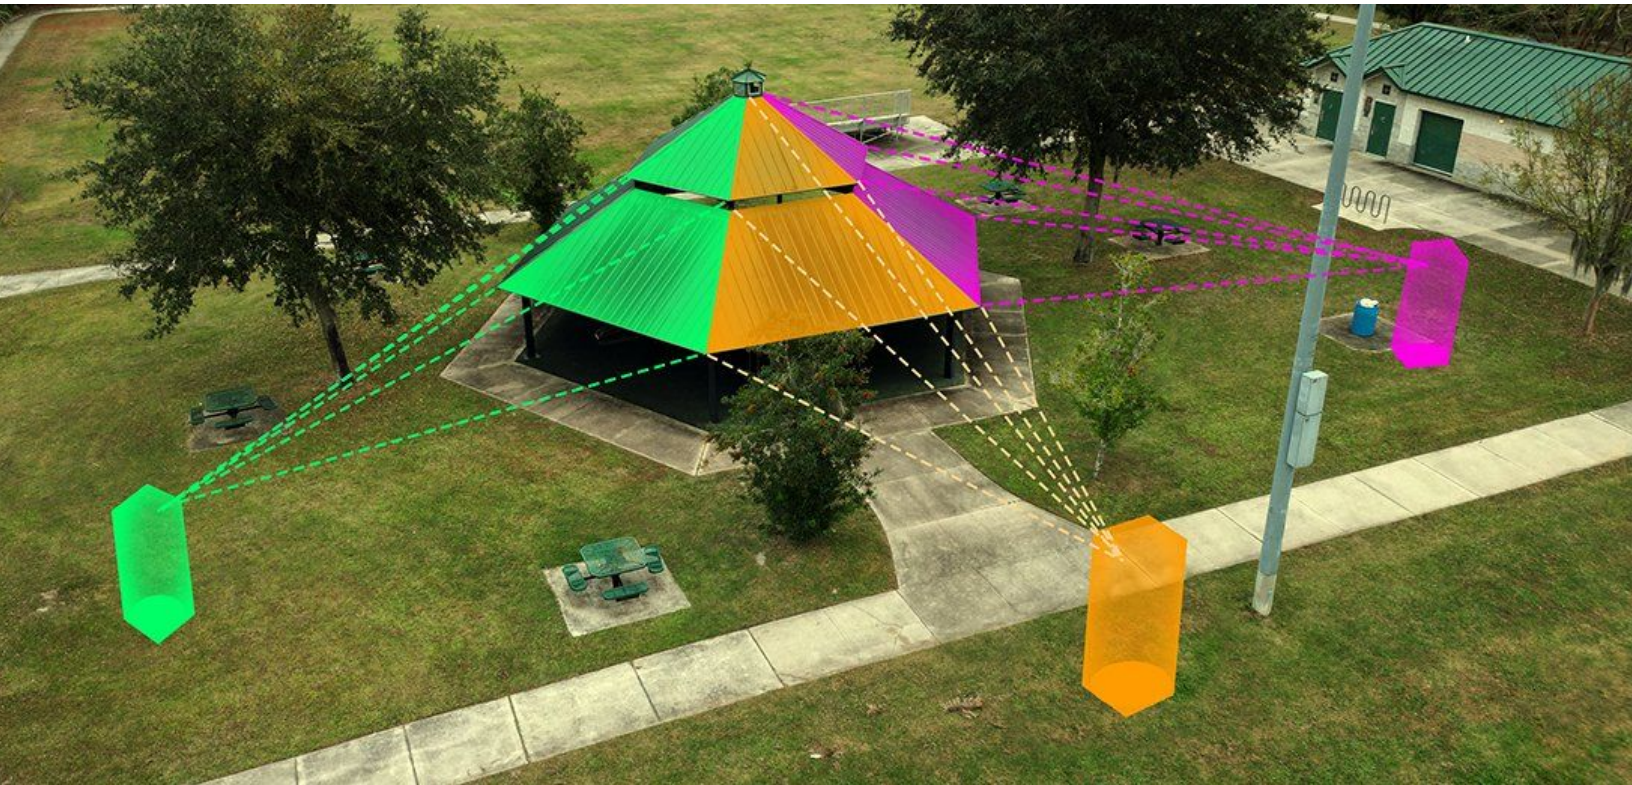

Site Assessment - Bob Hayes Athletic Complex

15 Minutes of original content.

Approximately \$132K spend

- 6 historical vignettes, 2 minutes each.
- 6 dynamic abstract animations, 30 seconds each.
- Remote control and content scheduling.
- Maintenance service for 3 years.
