### Kelsey Cox, Facility Representative

Ms Cox works for the City of Jacksonville | Public Works Department  
Engineering & Construction Management Division

Kelsey is a licensed professional engineer in Florida and has extensive experience in management of projects that include traffic signal design, roadway planning, transportation operations, and signing & pavement marking design.

Kelsey graduated from Florida State University in 2010 with a Civil Engineering degree and worked in the private sector before joining the City of Jacksonville's Public Works Department in 2018. She is currently pursuing her Masters of Public Policy at Jacksonville University and will graduate in December 2020.

With private and public sector experience, Kelsey is able to connect people, align stakeholders, and recognize the different challenges complex projects can bring. Kelsey is a true public servant and provides leadership and direction for major infrastructure projects, working regularly with different departments, authorities, and organizations for the City of Jacksonville. She is directly involved in these public art projects with the City and sees this as a great opportunity to learn more about the Art community.

### Larry Wilson, Design Professional

Larry Wilson has lived and worked in San Marco for probably 35 years. His business has always been located in San Marco. Mr Willson has volunteered over the years selecting anything from building paint colors to assisting in sculpture selection. He has seen the Square grow and develop into a vibrant exciting community center and would love to be involved in the next phase.
